

Museum for the Memory of Ustica

ENTRANCE

The paving around the museum is of smooth asphalt, flat, with rather irregular cobblestone sections. There are no steps in front of the entrance door. There is a 244.5 cm wide ramp with a slope of about 4%. There is an intercom placed at a height of 127 cm from the ground. There is a light, manually opening double door. The passage is 85 cm per door. There is a second door having the same characteristics.

TICKET OFFICE

The desk at the ticket and information point is 72 cm high.

HALLS

The entrance to the main hall of the museum is on the right. There is a manually opening double door with a width of 93 cm per door. The visit route in the main hall goes around the remains of the plane. The room is completely flat and large. On one of the four sides there are three small armchairs. The low glass wall that separates the visiting area from the plane wreck is transparent and allows also people in wheelchairs to observe the installation artwork. The hall has five safety exits in addition to the entrance door.

A second room with a 75 cm wide entrance door has computer stations with audio / video material relating to the facts of Ustica. The desks of the computer stations are 72 cm high (the space below is 69 cm). Each pc is equipped with earphones. There is also a panel for showing videoclips. The room is large and makes it easy to move and rest.

TOILETS

The access to toilets is from the main hall. There are toilets for men, women and the disabled. The entrance door to the ante-bathroom, without toilets, has a width of 89 cm.
